
Basket

Name:Barknest

Code:BM02

Designer: Boucquillon & Maaoui

ALESSI

Product description

The "Bark" collection has now been joined by the "Barknest" basket, an object that, in name and form, recalls a cosy nest with rounded walls for holding and safeguarding precious contents.

Characteristics / Suggested use.

-Produced at the company's factory in Crusinallo, Omegna, like the other objects in the collection, this round basket from the "Bark" range demonstrates Alessi's skill in processing steel. Through various processing stages, metal sheet is cut, laser perforated, bent and finally welded to obtain the organic and sinuous shape desired by the designers. Unrivalled manufacturing expertise is needed to use steel to create an object on to which organic and natural memory can be impressed.

-Its compact dimensions allow the "Barknest" basket to be used in various contexts: in the kitchen, at table or on a desk.

-The highly expressive design of this object enhances any room where it is displayed.

-A container for holding what is precious.

- Clean the basket with a soft cloth and a non-abrasive detergent

Technical notes

BM02 - Barknest - Round basket in 18/10 stainless steel. - h cm 7,0 ø cm 21,0 - h 2¾" ø 8¼"

BM02 B - Barknest - Round basket in steel coloured with epoxy resin, black. - h cm 7,0 ø cm 21,0 - h 2¾" ø 8¼"

BM02 W - Barknest - Round basket in steel coloured with epoxy resin, white. - h cm 7,0 ø cm 21,0 - h 2¾" ø 8¼"

Metaproject notes

Designed by Michel Boucquillon and Donia Maaoui, the "Bark" collection was inaugurated in 2015 with the namesake centrepiece. The designers drew their inspiration from their home, Casa Boucquillon: a place for experimentation, meditation and work where they live in sync with nature. The perforated pattern of the "Bark" range recalls the bark on the trees around the house. The result is a strongly poetic collection where every individual object proves to be, either in shape or in function, in continuous and harmonious dialogue with nature.
