TIMELESS HARMONY

Etruscan granulation, a sophisticated manufacturing technique that involved soldering minute spheres of gold or silver to a thin metal sheet, is reinterpreted by Alessi to adorn the surface of four items with minimalist lines. Two containers complete with lids, a tray and a bowl all feature a simplicity of design that beautifully contrasts with their expressive, gleaming “skin”.

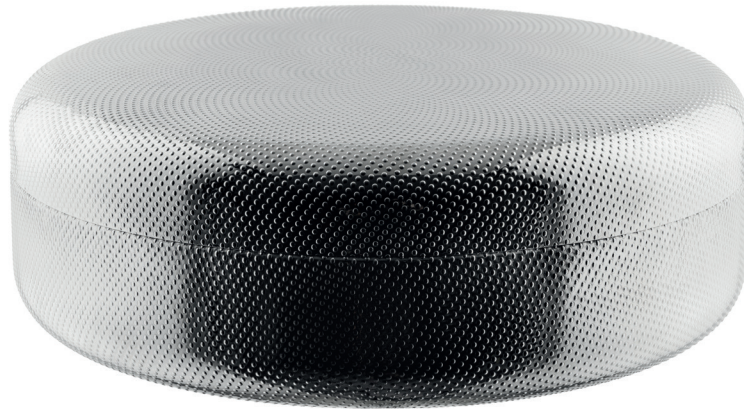

DEDICATED TO

Devotees of the most minimalist design, who are sure to appreciate these functional items, and admirers of intricate metalwork, who can surround themselves with exquisitely finished items.

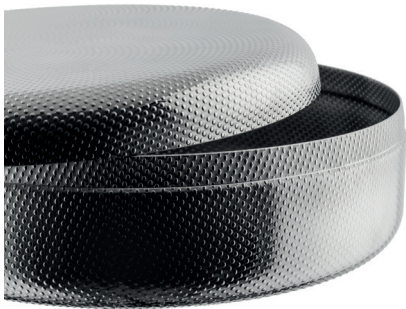

CONTAINERS

A PRECIOUS BOX

A special container for items that hold fond memories, for packaging a gift or, simply for storing small accessories neatly on a desk. Extra Ordinary Texture proposes a versatile, sophisticated container offered in two different sizes.

COMPONENTS

Containers with lid in 18/10 stainless steel with granulated decoration.

DESIGN NOTES

For all settings

Containers featuring minimalist design and sophisticated decoration, which work well in all different styles of setting.

Designed by light

Alessi reinterprets the ancient goldsmithing art of Etruscan granulation, a sophisticated manufacturing technique that involved soldering minute spheres of gold or silver to a thin metal sheet. Thanks to the way it interacts with light, the surface of the Extra Ordinary Texture container dances with reflections.

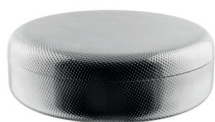

SUSTAINABILITY AND SAFETY

Made in Italy, in the Alessi factory at Crusinallo, Omegna. Steel is one of the most durable and resilient materials of all, eco-friendly throughout its life cycle and completely recyclable.

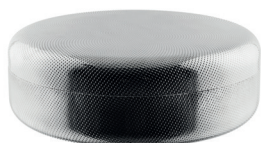

Use and maintenance

[Easy to clean and maintain] Dishwasher-safe. Avoid use of abrasive products which could damage the surface.

ROUND BOX PRECIOUS REFLECTIONS

Produced at the company's factory in Crusinallo, Omegna, the Extra Ordinary Texture round bowl, like all the other items in this family, demonstrates Alessi's skill in processing steel. The result is extraordinary: a surface that captures light and everyone's eye.

COMPONENTS

Round bowl in 18/10 stainless steel with granulated decoration.

DESIGN NOTES

Versatile

The carefully studied size makes the Extra Ordinary Texture bowl perfect for all sorts of uses in the kitchen, but also on a table or desk.

ROUND TRAY

THE SIMPLICITY OF LIGHT

A round tray made of stainless steel decorated with a series of tiny granules that enhance the bright, reflective surface of this material. A sophisticated item which is nonetheless functional thanks to the slightly raised edge that makes it perfect for table service.

COMPONENTS

Round tray in 18/10 stainless steel with granulated decoration.

DESIGN NOTES

Refined

An elegant and functional item, perfect for leaving on display when not in use.
